WORK EXPERIENCE

Lead Teacher

Chestnut Preschool and Daycare

📅 June 2018 - current   📍Ellensburg, WA

- Managed care for children aged 2.5-12, ensuring a safe and nurturing environment.
- Stayed abreast of early childhood education trends and maintained essential certifications including CPR, and food handlers.
- Developed skills in conflict resolution, patience, and problem-solving, demonstrating the ability to learn and adapt in dynamic settings.

PROJECTS

ChestnutPreschool.com

Freelance Project

- Led the full development and design of Chestnut Preschool's website using React, delivering a comprehensive platform to detail the daycare's services, facilitating a more accessible information flow for parents.
- Implemented advanced features including online pre-registration forms and a messaging system, significantly enhancing the daycare's operational efficiency and parent communication.
- Managed the project from inception to launch, coordinating closely with the client to ensure the website met their needs and expectations. This process involved regular progress updates, feedback sessions, and adjustments based on client input, showcasing strong project management and client relations skills.

FilmStack.io

Solo-developed

- Developed a web application using React and Vite for exploring movie titles and their details, enhancing my skills as a front-end developer.
- Implemented API integration with The Movie Database (TMDb) to fetch and display movie information, providing users with a rich discovery experience.

EDUCATION

Bachelor of Science

Computer Science

Central Washington University

📅 2020 - 2023

📍 Ellensburg, WA
